## 1. Qualitative information on consolidated results for the period under review

### (1) Consolidated operating results

During the first three months of the current fiscal year (May 1, 2016 to July 31, 2016), the Japanese economy recovered at a moderate pace, supported by an improvement in the employment market, despite slowing momentum in corporate earnings and consumer spending.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business and increase earnings. Specifically, the Group opened new dispensing pharmacies and used M&A to expand the business. It also developed its urban drug and cosmetic store business.

In the first three months of the fiscal year, net sales increased 10.9% year on year to ¥57,819 million, operating income decreased 15.8% to ¥2,281 million, ordinary income decreased 17.7% to ¥2,376 million, and profit attributable to owners of parent decreased 10.5% to ¥1,371 million.

Financial results by business segment are as follows.

#### (Dispensing pharmacy business)

In drug price and dispensing fee revisions in April 2016, the role of pharmacies located near hospitals was reevaluated, but in order to realize patient-focused non-hospital dispensing services, pharmacists and dispensing pharmacies are now being required to play a key role at the heart of local communities.

To ensure our pharmacists and dispensing pharmacies fulfill their role at the heart of local communities, the Group continues to build links with local healthcare service providers, mainly in the area of home-based dispensing, step up the integration and continuous management of drug information using patient medication notebooks and other means, and promote wider use of generic drugs. In addition, we stepped up training for the 375 newly graduated pharmacists that joined the Group in April 2016 in order to enhance their skills as primary care pharmacists.

In business development, the Group continued to push ahead with business expansion by opening new dispensing pharmacies and through M&A deals.

As a result, for the first three months of the fiscal year, the dispensing pharmacy business reported higher sales but lower profit with sales rising 10.0% year on year to ¥51,438 million and segment income decreasing 8.2% to ¥3,437 million.

During the period under review, the Group opened 14 new dispensing pharmacies, including those acquired through M&A deals, and closed one pharmacy, resulting in a total of 894.

#### (Drug and cosmetic store business)

In the drug and cosmetic store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors.

Against this backdrop, the Group continued to open *ainz & tulpe* urban drug and cosmetic stores, strengthened merchandise lineups, particularly drug and cosmetics products, and worked to capture inbound demand. We also actively developed proprietary merchandise brands such as *LIPS and HIPS* and *cocodecica*, leading to an increase in profit margins.

As a result, for the first three months of the fiscal year, the drug and cosmetic store business reported an increase in sales of 5.2% year on year to ¥5,246 million. However, segment loss was ¥194 million, compared with segment loss of ¥124 million in the same period a year earlier.

In the first quarter of the fiscal year, the Group opened *ainz & tulpe* Colette Mare SAKURAGICHO-B1 (Naka Ward, Yokohama) and closed one store, resulting in a total of 52 cosmetic and drug stores at the end of the first quarter.

#### (Other businesses)

Net sales from other businesses rose 200.2% year on year to ¥1,134 million and segment loss was ¥419 million compared with the loss of ¥127 million a year earlier.

### (2) Consolidated financial position

The balance of total assets at the end of the first quarter decreased by ¥738 million from the end of the previous fiscal year to ¥139,149 million.

This mainly reflected cash on hand and in banks, an increase in inventories due to business expansion through new store openings and M&A, as well as a decline in the balance of accounts receivable.

The balance of liabilities decreased by ¥854 million to ¥85,709 million, mainly reflecting a decrease in accounts payable and a decrease in accrued income taxes.

The balance of short- and long-term debts increased by ¥1,380 million to ¥21,925 million.

Total net assets increased by ¥115 million to ¥53,440 million and the shareholders' equity ratio improved 0.3 percentage points to 38.4%.

**(3) Forecast of consolidated financial results and other forward-looking information**

The Group has made no change to its earnings forecasts for the first six months of the fiscal year and for the full fiscal year, announced on May 27, 2016.

**2. Matters concerning summary information (notes)**

**(1) Major changes in subsidiaries during the period**

There are no applicable matters to be reported.

**(2) Application of specified accounting methods for the preparation of quarterly consolidated financial statements**

Tax expenses were calculated by reasonably estimating the effective tax rate after the application of tax effect accounting to net income before taxes for the consolidated fiscal year including the first quarter, and multiplying the estimated effective tax rate by income before income taxes for the quarter.

**(3) Changes in accounting principles, changes in accounting estimates, and restatement of revisions**

There are no applicable matters to be reported.

**(4) Additional information**

(Adoption of the Implementation Guidance on Recoverability of Deferred Tax Assets)

Effective from the first quarter of the current fiscal year, the Company has applied the Implementation Guidance on Recoverability of Deferred Tax Assets (ASBJ Guidance No. 26, March 28, 2016).

**3. Quarterly consolidated financial statements****(1) Quarterly consolidated balance sheet**
