1. Qualitative information on consolidated results for the period under review

(1) Consolidated operating results

During the first six months of the current fiscal year (May 1, 2017 to October 31, 2017), consumer spending in the Japanese economy rose at moderate pace, capital investment showed signs of a pickup and corporate earnings improved.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business by opening new dispensing pharmacies, using M&A and developing its urban drug and cosmetic store business. The Group also raised a total of ¥27.6 billion mainly through a public offering and private placements in order to strengthen its financial position.

In the first six months of the fiscal year, net sales rose 13.3% year on year to ¥132,342 million, operating income increased 65.7% to ¥8,367 million, ordinary income increased 62.1% to ¥8,665 million, and profit attributable to owners of parent rose 54.7% to ¥4,418 million.

Financial results by business segment are as follows.

(Dispensing pharmacy business)

In the dispensing pharmacy business, sales continued to rise at existing dispensing pharmacies, supported by growth in average sales per prescription.

To ensure our pharmacists and dispensing pharmacies fulfill their role at the heart of local communities, the Group continues to build links with local healthcare service providers, mainly in the area of home-based dispensing, step up the integration and continuous management of drug information using patient medication notebooks and other means, and promote wider use of generic drugs.

In business development, the Group continued to push ahead with business expansion by opening new dispensing pharmacies and through M&A deals.

As a result, for the first six months of the fiscal year, the dispensing pharmacy business reported higher sales and profits, with sales rising 13.1% year on year to ¥117,991 million and segment income increasing 29.5% to ¥9,702million.

During the period under review, the Group opened 18 new dispensing pharmacies, including those acquired through M&A deals, and closed 39 pharmacies, resulting in a total of 1,045.

(Drug and cosmetic store business)

In the drug and cosmetic store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors.

Against this backdrop, the Group continued to open *ainz & tulpe* urban drug stores and worked to make stores more appealing by refurbishing existing stores and strengthening merchandise lineups, particularly drug and cosmetics products. Earnings also improved, supported by lower costs due to greater business efficiency and by an increase in the gross margin due to active efforts to develop *LIPS and HIPS*, *cocodecica* and other proprietary brands and an overhaul of procurement activities.

As a result, for the first six months of the fiscal year, the drug and cosmetic store business reported an increase in sales of 12.4% year on year to ¥11,566 million. And segment income was ¥163 million, compared with segment loss of ¥384 million in the same period a year earlier.

In the second quarter of the fiscal year, the Group opened the *ainz & tulpe* Odakyu Department Store Machida (Machida City, Tokyo) and closed three stores, resulting in a total of 50 drug and cosmetic stores at the end of the second quarter.

(Other businesses)

Net sales from other businesses rose 23.3% year on year to ¥2,784 million and segment loss was ¥330 million compared with the loss of ¥826 million a year earlier.

(2) Consolidated financial position

The balance of total assets at the end of the second quarter increased by ¥24,213 million from the end of the previous fiscal year to ¥180,537 million. That mainly reflected an increase in cash and deposits from the public offering and private placements.

The balance of liabilities decreased ¥6,386 million to ¥89,757 million.

The balance of short- term and long-term debts decreased by ¥3,785 million to ¥22,066 million.

Total net assets increased by ¥30,600 million to ¥90,779 million and the shareholders' equity ratio increased 11.8 percentage points to 50.2%.

(Cash flows)

In the first six months of the fiscal year, cash and cash equivalents (“cash”) increased by ¥27,376 million from the previous fiscal year end to ¥56,611 million.

Cash flows from each activity and their relevant factors are as follows.

During the first six months of the fiscal year, net cash provided by operating activities was ¥6,886 million, compared with ¥6,090 million provided in the same period a year earlier. The main cash inflows were profit before income taxes of ¥8,104 million, depreciation and amortization of ¥1,735 million, amortization of goodwill of ¥1,983 million. The main cash outflow was income taxes paid of ¥2,919 million.

Net cash used in investing activities amounted to ¥1,279 million, compared with ¥3,053 million used a year earlier. This was mainly due to payments of ¥1,247 million for the acquisition of property, plant and equipment and intangible fixed assets and ¥418 million for purchases of subsidiaries’ shares resulting in obtaining controls.

Net cash provided by financing activities totaled ¥21,769 million, compared with ¥2,616 million used a year earlier. The main cash inflow was ¥27,635 million from the issue of new shares related to the public offering and private placements and sale of treasury stock, while the main cash outflows were net repayment of ¥3,914 million from short-term and long-term debt repayment and proceeds and ¥1,585 million for cash dividends paid.

(3) Forecast of consolidated financial results and other forward-looking information

The Group has revised its consolidated financial forecasts for the fiscal year ending April 30, 2018, announced on June 6, 2017. For more details, please refer to the announcement released today (December 5, 2017), “Notice on the Revision of Consolidated Business Performance Forecast.”
