1. Qualitative information on consolidated results for the period under review

(1) Consolidated operating results

During the first three months of the current fiscal year (May 1, 2019 to July 31, 2019), the Japanese economy recovered at a modest pace, supported by a steady improvement in employment conditions, signs of a pickup in consumer spending and a continued strong level of corporate earnings, despite weakness in some areas, particularly exports.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business and increase earnings. Specifically, the Group opened new dispensing pharmacies and used M&A to expand the business. It also developed its cosmetic and drug store business.

In the first three months of the fiscal year, net sales increased 11.5% year on year to ¥72,461 million, operating income increased 13.6% to ¥3,921 million, ordinary income increased 16.7% to ¥4,212 million, and profit attributable to owners of parent increased 21.0% to ¥2,240 million.

Financial results by business segment are as follows.

(Dispensing pharmacy business)

In drug price and dispensing fee revisions in April 2018, the role of pharmacies located near hospitals and pharmacies located in the same premises was reviewed, with primary care dispensing pharmacies and pharmacists receiving a higher evaluation as part of government efforts to drive a structural shift from dispensing focused only on dispensing drugs to dispensing focused on services that contribute to local healthcare services.

To ensure our pharmacists and dispensing pharmacies fulfill their primary care role, the Group continues to build links with local medical service providers, strengthen pharmaceutical management and guidance based on the integrated and continuous management of drug information using patient medication notebooks and other means, and promote wider use of generic drugs. In addition, we stepped up training for the 257 newly graduated pharmacists that joined the Group in April 2019 in order to enhance their skills as primary care pharmacists.

In business development, the Group pushed ahead with business expansion by opening new dispensing pharmacies and using M&A deals. Store operations are also being overhauled.

As a result, for the first three months of the fiscal year, the dispensing pharmacy business reported sales of ¥64,800 million, up 13.5% year on year, and segment income of ¥4,804 million, up 20.6%.

During the period under review, the Group opened five new dispensing pharmacies, including those acquired through M&A deals, and closed 17 pharmacies, resulting in a total of 1,120.

(Cosmetic and drug store business)

In the cosmetic and drug store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors.

Against that backdrop, the Group continues to open *ainz & tulpe* cosmetic and drug stores in the Tokyo metropolitan area, as well as strategically develop sales areas at each store, based on the concept of creating stores where women customers would be happy to browse for an hour. Also, the Group has resumed store openings in major urban markets outside the Tokyo metropolitan area to capitalize on the *ainz & tulpe* brand's rising visibility and name recognition. The Group also continues to work on improving profitability by reducing costs and developing *LIPS and HIPS*, *cocodecica* and other original brands.

As a result, for the first three months of the fiscal year, the cosmetic and drug store business reported an increase in sales of 0.8% year on year to ¥6,560 million and a decline in segment income of 36.9% to ¥230 million.

During the same period, the Group opened *ainz & tulpe* stores: *ainz & tulpe* bono SAGAMIONO (Sagamihara, Kanagawa Prefecture), *ainz & tulpe* ASAKUSA ROX (Taito Ward, Tokyo), *ainz & tulpe* PERIE Chiba (Chiba, Chiba Prefecture) and closed two stores, resulting in a total of 55 cosmetic and drug stores at the end of the period.

(Other businesses)

Net sales from other businesses decreased 22.4% year on year to ¥1,100 million and segment loss was ¥51 million compared with the loss of ¥67 million a year earlier.

(2) Consolidated financial position

The balance of total assets at the end of the first quarter decreased by ¥2,477 million from the end of the previous fiscal year to ¥186,543 million.

That mainly reflected an increase in accounts receivable and inventories against decreases in cash on hand and in banks and goodwill.

The balance of liabilities decreased ¥2,709 million to ¥82,389 million, mainly reflecting an increase in accounts payable and decreases in accrued income taxes and the balance of long-term debt.

The balance of short- and long-term debts decreased by ¥1,497 million to ¥10,059 million.

Total net assets increased by ¥232 million to ¥104,154 million and the shareholders' equity ratio improved 0.9 percentage points to 55.8%.

(3) Forecast of consolidated financial results and other forward-looking information

The Group has made no change to its earnings forecasts for the first six months of the fiscal year and for the full fiscal year, announced on June 4, 2019.
