1. Analysis of Operating Results and Financial Position

(1) Analysis of operating results

During the fiscal year ended April 30, 2014, the Japanese economy recovered steadily, despite signs of a pullback in demand after spiking ahead of the consumption tax hike. The upturn in the economy reflected an improvement in corporate earnings and employment conditions, as well as a broader-based pickup in capital expenditure and other areas.

In this economic environment, the AIN PHARMACIEZ Group (the Group) worked to expand its business by opening new dispensing pharmacies and using M&A, while also pushing ahead with the comprehensive development of medical malls and the urban drug and cosmetic store business. The Group also aimed to boost profitability by revitalizing existing stores and dispensing pharmacies.

For the fiscal year under review, the Group reported net sales of ¥170,225 million, an increase of 10.1% year on year, reflecting the opening of new dispensing pharmacies and M&As. Ordinary income rose 2.9% to ¥10,587 million and net income increased 3.6% year on year to ¥5,259 million.

As of the end of the fiscal year, the number of stores in the Group totaled 675, a net increase of 54 stores from the end of the previous fiscal year.

Performance by business segment was as follows.

(Dispensing pharmacy business)

In the dispensing pharmacy business, sales continued to rise at existing dispensing pharmacies, supported by growth in average sales per prescription due to an increase in longer-term prescriptions.

Under dispensing fee revisions in April 2014, the dispensing fee system is being revised to reflect the functions of dispensing pharmacies in order to improve pharmaceutical management and promote dispensing services for home healthcare patients. The revisions are also designed to encourage even wider use of generic drugs.

For some time, the Group has been preparing for the impact of these dispensing fee revisions through a pharmacy-led project that reviews and rebuilds all dispensing processes at each dispensing pharmacy in order to improve dispensing pharmacy efficiency and upgrade patient services. The Group is also building links with local medical service providers, mainly in the area of home-based dispensing, and working to promote wider use of generic drugs in order to fulfill the new roles being asked of dispensing pharmacies.

In business development, the Group continued to push ahead with business expansion by opening new dispensing pharmacies, primarily dispensing pharmacies near hospitals and medical malls, and through M&A deals. In medical mall development, the Group was involved in the development of one of Japan's largest medical floors, in ABENO HARUKAS, a new mixed-use skyscraper (Abeno-ku, Osaka; 60 above ground floors, five below ground). This culminated in the opening of a new medical mall dispensing pharmacy called Ain Pharmacy ABENO HARUKAS in April 2014.

The dispensing pharmacy business reported net sales of ¥151,472 million, an increase of 10.3% year on year, and segment income of ¥12,772 million, up 0.9%. During the fiscal year under review, the Group opened 62 dispensing pharmacies, including those operated by 13 companies that became Group subsidiaries through M&A deals, and closed six dispensing pharmacies, resulting in a total of 616.

(Drug and cosmetic store business)

In the drug and cosmetic store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors, as well as regulatory changes related to online sales of OTC drugs.

Against this backdrop, the Group continued to open *ainz* & *tulpe* urban drug stores to meet consumer needs. *Ainz* & *tulpe* is a specialist, highly original drug and cosmetic store brand that the Group is rolling out in urban areas with high customer traffic. The Group continued to reinforce merchandising lineups at *ainz* & *tulpe* stores, particularly drug and cosmetic products, in order to boost sales capabilities and increase the gross margin.

In sales promotion, the Group worked to expand the customer base using a range of different communication tools tailored to customer segments, such as emails for Ainz Point Club members and communication apps such as LINE and Twitter.

During the fiscal year under review, the Group opened a number of ainz & tulpe format stores. These included ainz & tulpe SANNOMIYA SANKITA-DORI (Chuo-ku, Kobe), ainz & tulpe ABENO solaha (Abeno-ku, Osaka) and ainz & tulpe NU chayamachi (Kita-ku, Osaka), opened as part of efforts to build a dominant position in the Kyoto-Osaka-Kobe area. The Group also closed five stores, mainly suburban stores, resulting in a Group total of 59 stores at the end of the fiscal year.

As a result, the drug and cosmetic store business reported net sales of ¥17,985 million, an increase of 7.5% year on year, and segment income of ¥23million, up 65.8%.

(Other businesses)

Net sales of other businesses totaled ¥767 million, an increase of 43.9% year on year, and segment losses totaled ¥218 million, an improvement of ¥179 million year on year.

In the fiscal year ending April 30, 2015, the dispensing pharmacy business will continue to develop new dispensing pharmacies near hospitals and medical mall dispensing pharmacies, and actively seek M&A opportunities. Also, the drug and cosmetic store business will work to expand its business by continuing to open ainz & tulpe urban drug stores.

In the dispensing pharmacy business, existing dispensing pharmacies are struggling to maintain profitability due to factors such as higher procurement costs after the hike to consumption tax and greater demands on them to provide patients with high-quality services.

The Group will continue to implement its strategy of expanding the business through new store openings and M&As in order to maximize economies of scale. Also, the Group will work to improve profitability at existing dispensing pharmacies by rolling out its project to revitalize pharmacies, and strengthen the capabilities of dispensing pharmacies by upgrading pharmacist recruitment and training programs and investing in facilities. Using its specialist generic drug wholesale subsidiary, WHOLESALE STARS Co., Ltd., the Group will also promote wider use of generic drugs in order to secure profits.

In the drug and cosmetic store business, the Group will continue to strengthen merchandise lineups at each store, enhance the appeal of its stores as specialist drug and cosmetics formats, and boost the gross margin. In sales promotion, the Group will continue to use mobile communication tools and other approaches to expand the customer base, while also boosting the communication capabilities of the *ainz* & *tulpe* format.

In addition, the Group will continue to open new stores in station retail areas and adjacent facilities, where it is easier to attract customers. This will be combined with a scrap & build approach for existing stores, using store renovations and closures to revitalize the store network.

Based on these initiatives, the Group forecasts net sales for the fiscal year ending April 30, 2015 of ¥190,000 million, up 11.6% year on year, ordinary income of ¥10,700 million, up 1.1%, and net income of ¥5,500 million, an increase of 4.6%

(2) Analysis of financial position

1) Assets, liabilities and net assets

Consolidated current assets at the end of the fiscal year under review increased by ¥1,172 million to ¥44,334 million compared to ¥43,162 million at the end of the previous fiscal year.

This mainly reflected cash on hand and in banks of ¥18,846 million, an increase of ¥386 million compared with the previous fiscal year, merchandise of ¥9,578 million, an increase of ¥1,762 million due to business expansion, and other accounts receivable of ¥5,679 million, down ¥1,500 million.

Fixed assets at the end of the fiscal year under review increased by ¥4,371 million to ¥57,048 million compared to ¥52,676 million at the end of the previous fiscal year.

This was mainly due to an increase in fixed assets related to investment in new stores and expansion in the asset base at consolidated subsidiaries that became part of the Group through M&A deals. Property, plant and equipment, mainly buildings and structures, increased by ¥2,033 million to ¥19,583 million, while goodwill rose ¥442 million to ¥20,017 million.

In addition, investments and other assets increased by ¥1,814 million year on year to ¥16,334 million, chiefly reflecting an increase in deposits and guarantees.

Liabilities increased by ¥1,659 million to ¥59,142 million compared to ¥57,483 million at the end of the previous fiscal year.

This primarily reflected accounts payable of ¥28,002 million, up ¥3,917 million year on year, short-term debt of ¥6,535 million, down ¥947 million, and long-term debt of ¥4,502 million, down ¥3,545 million.

As a result of the above, the balance of current liabilities increased by ¥4,662 million from the previous year-end balance of ¥45,686 million to ¥50,349 million, and the balance of long-term liabilities decreased by ¥3,003 million from the previous year-end balance of ¥11,796 million to ¥8,793 million.

Net assets increased by ¥3,883 million to ¥42,240 million compared to ¥38,356 million at the end of the previous fiscal year.

Retained earnings increased ¥4,302 million year on year to ¥26,007 million due to growth in surplus funds, while treasury stock increased ¥411 million to ¥417 million due to a share buyback.

As a result of the above factors, shareholders' equity ratio improved 1.5 percentage points to 41.5%, compared with 40.0% at the end of the previous fiscal year.

2) Cash flows

In the fiscal year under review, cash on hand and in banks ("cash") increased ¥295 million (1.6%) year on year to ¥18,735 million. This reflected operating cash flow generated by dispensing pharmacy and drug and cosmetic store businesses, which was mainly used to actively invest in new store openings and M&A. Some cash was also retained to provide constant access to a certain level of funds.

Cash flows from each category and their relevant factors are as follows.

(Cash flows from operating activities)

Net cash provided by operating activities was ¥14,662 million, an increase of 43.7% year on year.

The main items that were positive for cash flow were income before income taxes and minority interests of ¥10,265 million, as well as depreciation and amortization of ¥2,258 million, amortization of goodwill of ¥2,033 million and increase in notes and accounts payable-trade of ¥3,075 million related to business expansion through new store openings and M&A.

The main items that were negative for cash flow was income taxes paid of ¥4,603 million.

(Cash flows from investing activities)

Net cash used in investing activities totaled ¥7,749 million, a decrease of 8.9% year on year.

This mainly reflected payments of ¥3,460 million for purchases of property, plant and equipment related to the opening of new urban drug stores and dispensing pharmacies, and ¥2,410 million for purchases of shares in subsidiaries due to changes in the scope of consolidation related to shares acquired in 13 companies through M&A deals.

(Cash flows from financing activities)

Net cash used in financing activities totaled ¥6,617 million, compared with cash of ¥803 million provided the previous fiscal year.

This was mainly attributable to net short-term debt repayment of ¥318 million and net long-term debt repayment of ¥4,373 million.

Purchase of treasury stock of ¥411 million and cash dividends paid of ¥956 million also had a negative impact on cash flows from financing activities.

Changes in the Group's cash flow indicators are shown below.

	Year ended April	Year ended April	Year ended April	Year ended April
	30, 2011	30, 2012	30, 2013	30, 2014
Shareholders' equity ratio (%)	38.3	39.2	40.0	41.5
Equity ratio based on market value (%)	64.5	79.6	79.3	70.3
Debt redemption term (years)	1.7	1.1	1.7	0.9
Interest coverage ratio (times)	31.4	73.6	70.3	143.0

Notes: Shareholders' equity ratio = Equity capital / total assets

Equity ratio based on market value = market capitalization / total assets

Debt redemption term = interest-bearing debt / operating cash flows

Interest coverage ratio = operating cash flows / interest paid

(3) Basic policies for profit distribution, and dividends for the current fiscal year and the next fiscal year

The Company considers the return of profits to shareholders as an important management issue. Our basic policy is to repay our investors proportionate to the profit we make, and to maintain these at stable levels.

Internal reserves are held to strengthen the corporate structure and in preparation for new store openings and future development of the business. We will make effective use of these funds to generate profits to be returned to shareholders in the future.

The Company's basic policy is to pay dividends from retained earnings once per year at the end of the fiscal

^{*}All indicators are calculated based on consolidated financial data.

^{*}Interest-bearing debt includes all liabilities recorded on the balance sheet on which interest is being paid.

^{*}Operating cash flows and interest paid are calculated using the cash flows from operating activities and the interest paid on the consolidated statements of cash flows.

year. The year-end dividend to be paid is determined at the ordinary general meeting of shareholders, and interim dividends are set at the Board of Directors' meeting. Further, the Company has stated in its Articles of Incorporation that "When approved by the Board of Directors, interim dividends may be paid based on a record date of October 31 each year."

For the fiscal year under review, the Company plans to pay a dividend from retained earnings of ¥60 per share, the same level as the dividend for the previous fiscal year.

In view of profit forecasts, plans for investment and other factors, the Company intends to pay an ordinary dividend from retained earnings of ¥60 per share for the fiscal year ending April 30, 2015, the same level as the planned dividend for the fiscal year under review.

(4) Business and other risks

The following factors may affect the Group's operating results, stock price and financial position. Statements in the text referring to the future reflect the judgment of the Group at the end of the fiscal year under review.

1) Laws and regulations

(i) Regulations under the Pharmaceutical Affairs Law and other laws

We operate dispensing pharmacy business under various permits, licenses, registrations and notifications including those set forth by the Pharmaceutical Affairs Law, the Health Insurance Law, and the Pharmacists Law, under the supervision of the Ministry of Health, Labour and Welfare, and of prefectural health and welfare departments.

The drugstore business in our drug and cosmetic store business also involves drug sales, which are similarly regulated under the Pharmaceutical Affairs Law.

The main ones are as follows.

Approval, registration, appointment, license or notification	Term of validity	Related law or ordinance	Grantor
Permit to open a pharmacy	6 years	Pharmaceutical Affairs Law	Prefectural Governors
Insurance pharmacy certification	6 years	Health Insurance Law	Prefectural Social Insurance Bureau Heads
License to sell narcotic drugs	2 years	Narcotics and Psychotropics Control Law	Prefectural Governors
Notification of sales of medical equipment	Indefinite	Pharmaceutical Affairs Law	Prefectural Governors
Business selling highly controlled medical equipment	6 years	Pharmaceutical Affairs Law	Prefectural Governors
Medical product sales permit (Note)	6 years	Pharmaceutical Affairs Law	Prefectural Governors, etc.

Note: Under Article 25 of the Pharmaceutical Affairs Law, medical product sales permits fall into the three categories: Store-based drug sellers, drug sellers by household distribution and drug sellers by wholesale distribution. The Group's drug and cosmetic store business has a permit for store-based drug sales under this law. If the Group becomes the subject of an order of revocation or suspension of business license by the competent authorities due to an act committed in the Group's dispensing pharmacy and drug and cosmetic store businesses, which constitutes a violation of law set forth in Paragraph 1, Article 75 of the Pharmaceutical Affairs Law, items in Article 80 of the Health Insurance Law, or Paragraph 1, Article 51 of the Narcotics and Psychotropic Control Law, the Group's performance may be affected.

(ii) Easing of drug sales regulations

Under the "Law for Partial Revision of the Pharmaceutical Affairs Law" (Law No. 69, June 14, 2006), which includes a review of the sales system for over-the-counter (OTC) drugs; OTC drugs are categorized into three groups by risk. It has thus possible to sell the two lower-risk categories of drugs as newly registered sellers, not requiring a pharmacist. Factors such as the entry into the market of firms from other industries as a result of a continuing trend in the future to deregulate drug sales may affect the Group's performance.

2) Details of business

The Group's dispensing pharmacy business operates a chain of dispensing pharmacies. These dispensing pharmacies are mainly located near major hospitals (in order to focus on demand from patients who have prescriptions written by those hospitals) and in medical malls developed by the Group (in order to focus on demand from patients who have prescriptions written by those mixed medical facilities).

As the dispensing pharmacy business accounted for 89.0% of net sales in the fiscal year under review, we plan to continue the multi-store operation mainly based on dispensing pharmacies. Accordingly, the Group's operating results may be affected by the success or failure of the store opening policies and by trends in store openings by competitors in the same industry.

Furthermore, sales of dispensing pharmacies significantly depend on the medical institutions that write prescriptions. Therefore, uncertainties such as the issuance of non-hospital prescriptions by the medical institutions or suspension / discontinuation of operations thereof may affect the Group's performance.

3) Industry trends

The revenues in our dispensing pharmacy business come from pharmacy operations involving the dispensing and supplying of drugs based on prescriptions. The drug prices and dispensing fees are set by the Ministry of Health, Labour and Welfare. As a way to contract medical expenses, both medical treatment fees and drug prices are being revised incrementally. In the future as well, changes in profit structure resulting from factors such as revisions in the medical treatment fee system could continue to affect the Group's performance and financial position.

4) Securing qualified staff

Dispensing pharmacies and drugstores (Stores for Category 1 Drugs) are required by the Pharmaceutical Affairs Law to have a pharmacist on site; the Pharmacists Law stipulates that the dispensing of drugs must be handled by a pharmacist. The Group continues to have a policy of expansion by aggressively opening new stores, but if it becomes difficult to secure qualified pharmacists, this could affect our store openings and the Group's performance.

5) Risks of loss of trust in the Company

(i) Dispensing operation

In our dispensing pharmacy business, pharmacists dispense and supply prescription drugs that affect the human body. This business carries the risk that medical accidents might be caused through dispensing errors.

The Group recognizes that any medical accidents could have a severely damaging effect on society's confidence in the Group, and we place the highest priority on measures to avoid the risk from all aspects.

Primary risk prevention measures are as follows.

- Training programs for newly graduated pharmacists and mid-career pharmacists when joining the Company
- A continuing training program aimed at improving skills of pharmacists
- Pharmacy manager conferences attended by all pharmacy managers, to nurture supervisors
- Development of a dispensing error prevention system (PhAIN) that uses Personal Digital Assistants
 (PDAs) developed with a dispensing equipment manufacturer. Development and introduction of
 pharmacy equipment that makes use of information technology, such as the automation of
 dispensing operations.
- Use of in-house manuals for the dispensing operation and a system of observing rules set by the Internal Audit Office

Establishment of a Safety Policy Office specializing in measures to prevent dispensing errors

(ii) Protection of personal data

We possess patient data in the dispensing pharmacy business, including medical histories and prescription information, and we possess personal data in the drug and cosmetic store business obtained from the Ainz Point Club Card.

The Group has completed development of personal information protection systems and rules for the handling of such information. The Company acquired the Privacy Mark accreditation in the healthcare, medical and social service fields.

However, we believe it is possible that any accidental or illegal leakage of personal data may not only affect the Group's performance but also lead to a loss of society's confidence in the Group.

6) Risk in business strategy

We have promoted the expansion of the business scale of dispensing pharmacies through actively promoting new store openings and M&A.

Our basic policies regarding M&A strategy require us to carefully examine target companies and determine the amount to be paid for acquisitions thereof in order to stably secure a profitability level that exceeds the amortization of goodwill to be incurred. If matters do not go as planned, however, we may incur losses on valuation of shares in subsidiaries and impairment losses on goodwill, which may have an adverse impact on the Group's operating results and financial position.

7) Interest rate risks

In the Group's promotion of business expansion based on actively promoting new store openings and M&A, costs for ordinary store openings are covered by internal funds within the range of operating cash flow, while in large-scale M&A, costs are sometimes financed by borrowings from financial institutions.

In order to ensure flexible access to funds to support these activities, the Group maintains a certain level of liquidity on its balance sheet. As of the end of the fiscal year under review, cash on hand and in banks totaled ¥18,846 million, compared with a total balance of short- and long-term debt of ¥11,038 million.

We focus on possibility of return on investment and seek to reduce interest-bearing debts through efficient investment in implementing M&A deals. However, if the Group fails to secure an adequate return on its M&A investment, or due to interest rate fluctuations associated with conditions in financial market, the Group's financial position and operating results including interest payable may be affected.

2. State of the Group

The Group consists of AIN PHARMACIEZ INC. (the Company), 24 subsidiaries and one affiliated company.

(1) Dispensing pharmacy business

The Company operates and franchises dispensing pharmacies, and engages in consulting on the opening of dispensing pharmacies.

The subsidiaries AIN MEDIO Inc., DAICHIKU Co., Ltd., Asahi Pharmacy Co., Ltd., and 18 other subsidiaries operate dispensing pharmacies.

MEDIWEL Corp. is engaged in a medical-related consulting business and staff dispatching/introduction, primarily of doctors and pharmacists, Medical Development Co., Ltd. Is engaged in a medical-related consulting business, and WHOLESALE STARS Co., Ltd. Sells generic drugs and other merchandise.

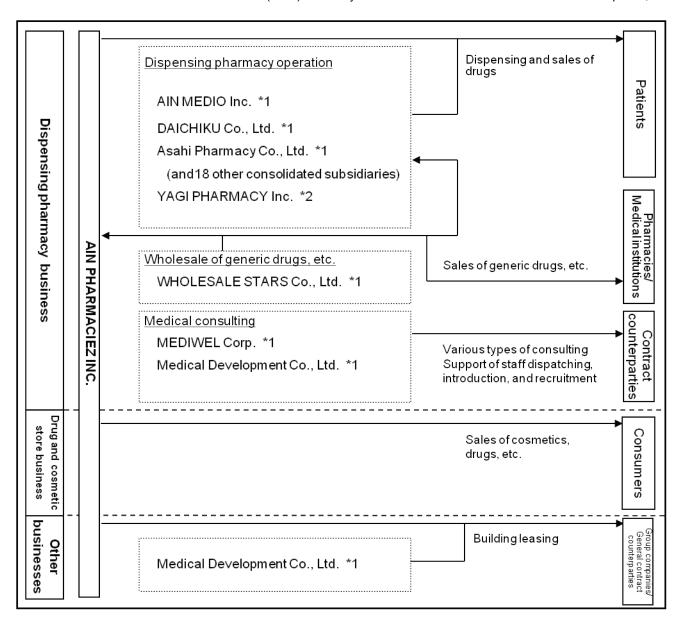

(2) Drug and cosmetic store business

The Company engages in the management of drugstores (sales of drugs, quasi-drugs, cosmetics, food, general merchandise, etc.), and in consulting on the opening of shopping centers.

(3) Other businesses

The Company and subsidiary Medical Development Co., Ltd. are in the building leasing business.

An organization chart of the business is as follows.

Notes: *1 consolidated subsidiary

^{*2} affiliated company not accounted under the equity method

3. Management Policies

- (1) Basic management policies of the Company
- (2) Target management indicators
- (3) The Group's medium- to long-term management strategies
- (4) Issues to be addressed

Disclosure of explanations regarding the above matters is omitted since there is no significant change from Summary of Financial Statements for Fiscal Year Ended April 2010 (as of June 3, 2010).

(Segment Information, etc.)

a. Segment information

1. Description of the reportable segments

The Company's reportable segments consist of those of its components for which it is possible to obtain separate financial information that is examined by its Board of Directors on a regular basis for the purpose of deciding on the allocation of corporate resources and assessing business performance.

The Group's business comprises three units that together represent its main business units, namely, dispensing pharmacy business that consists of operation of dispensing pharmacies, selling of generic drugs, temporary staff/recruiting and consulting services, and drug and cosmetic store business that consists of the management of urban and suburban drug and cosmetic stores as well as other businesses that consist mainly of real-estate leasing services. The formulation and examination of business strategy is conducted individually for each business.

Accordingly, the reportable segments of the Group are composed of three units, namely, dispensing pharmacy business, drug and cosmetic store business and other businesses.

2. Methods to determine the amounts of net sales, income or losses, assets, liabilities and other items by reportable segment

The methods used for accounting for the reportable business segments are generally similar to those described in the Basic Important Matters for Preparation of Consolidated Financial Statements.

The income figures for the reportable segments are expressed at the ordinary income level. Intersegment sales and transfers are based on prevailing market prices.

- 3. Sales, income (loss), assets, liabilities and other items for each reportable segment
- I. Previous fiscal year (May 1, 2012 to April 30, 2013)
