## 1. Operating Results and Other

### (1) Overview of operating results for the current fiscal year

During the fiscal year ended April 30, 2018, the Japanese economy improved at a moderate pace amid signs of a pickup in consumer spending and improving corporate earnings and employment conditions.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business and increase earnings. Specifically, the Group opened new dispensing pharmacies and used M&A to expand the business. It also developed its cosmetic and drug store business.

The Group is also actively working to create better working environments. AIN PHARMACIEZ INC., the Group's core operating company, has been awarded the highest "Eruboshi" certification by the Minister of Health, Labour and Welfare in recognition of its efforts to support women's participation and career advancement in the workplace.

For the fiscal year under review, net sales rose 8.2% year on year to ¥268,385 million, operating income increased 34.7% to ¥19,622 million, ordinary income increased 33.5% to ¥20,129 million and profit attributable to owners of parent increased 32.9% year on year to ¥10,567 million.

Performance by business segment was as follows. Effective from the fiscal year under review, the Group has changed the name of the drug and cosmetic store business to the cosmetic and drug store business. This is a change in name only and does not affect segment information.

#### (Dispensing pharmacy business)

In drug price and dispensing fee revisions in April 2018, the role of pharmacies located near hospitals and pharmacies located in the same premises was reviewed, with primary care dispensing pharmacies and pharmacists receiving a higher evaluation as part of government efforts to drive a structural shift from dispensing focused only on dispensing drugs to dispensing focused on services that contribute to local healthcare services.

To ensure our pharmacists and dispensing pharmacies fulfill their primary care role, the Group continues to build links with local medical service providers, strengthen pharmaceutical management and guidance based on the integrated and continuous management of drug information using patient medication notebooks and other means, and promote wider use of generic drugs.

The shortage of pharmacists in the healthcare sector is becoming more serious. To address this issue, the Group is working to attract new graduates, with 279 new pharmacist graduates joining the Group in April 2018. The Group is also upgrading pharmacist training programs to enhance their capabilities so that they can fill their role as pharmacists at the heart of the community.

In business development, the Group pushed ahead with business expansion by opening new dispensing pharmacies and using M&A deals. Store operations are also being overhauled.

During the fiscal year under review, the dispensing pharmacy business reported sales and profit growth with sales rising 7.6% year on year to ¥238,645 million and segment income increasing 18.6% to ¥22,668 million.

During the same period, the Group opened 36 new dispensing pharmacies, including those acquired through M&A deals, and closed 73 pharmacies, resulting in a total of 1,029.

#### (Cosmetic and drug store business)

In the cosmetic and drug store business, the market environment remained challenging due to a narrowing competitive gap between companies in the sector and the emergence of new competitors from sector consolidation and realignment that also extends to other business sectors.

Against this backdrop, the Group continued to open *ainz & tulpe* cosmetic and drug stores in Tokyo metropolitan area and worked to make stores more appealing by refurbishing existing stores and strengthening merchandise lineups, particularly cosmetics and drug products. Earnings also improved, supported by lower

costs due to greater business efficiency and by an increase in the gross margin due to active efforts to develop *LIPS* and *HIPS*, *cocodecica* and other proprietary brands and an overhaul of procurement activities.

As a result, for the fiscal year under review, the cosmetic and drug store business reported an increase in sales of 12.8% year on year to ¥24,117 million. And segment income was ¥657 million, compared with segment loss of ¥866 million a year earlier. During the fiscal year under review, the Group opened the *ainz & tulpe* Odakyu Department Store Machida (Machida City, Tokyo), *ainz & tulpe* MARUI KICHIJOJI (Musashino City, Tokyo), *ainz & tulpe* Grand Emio TOKOROZAWA (Tokorozawa City, Saitama) and *ainz* Grand Emio TOKOROZAWA (Tokorozawa City, Saitama) and closed eight stores, resulting in a total of 48 cosmetic and drug stores at the end of the fiscal year.

**(Segment Information, etc.)**

**a. Segment information**

1. Description of the reportable segments

The Company's reportable segments consist of those of its components for which it is possible to obtain separate financial information that is examined by its Board of Directors on a regular basis for the purpose of deciding on the allocation of corporate resources and assessing business performance.

The Group's business comprises three units that together represent its main business units, namely, dispensing pharmacy business that consists of operation of dispensing pharmacies, selling of generic drugs, recruiting and consulting services, and cosmetic and drug store business that consists of the management of cosmetic and drug stores as well as other businesses that consist mainly of real-estate leasing services. The formulation and examination of business strategy is conducted individually for each business.

Accordingly, the reportable segments of the Group are composed of three units, namely, dispensing pharmacy business, cosmetic and drug store business and other businesses.

Effective from the fiscal year under review, the Group has changed the name of the drug and cosmetic store business to the cosmetic and drug store business. This is a change in name only and does not affect segment information. As a result, information for the previous fiscal year is unchanged.

2. Methods to determine the amounts of net sales, income or losses, assets, liabilities and other items by reportable segment

The methods used for accounting for the reportable business segments are generally similar to those described in the Basic Important Matters for Preparation of Consolidated Financial Statements.

The income figures for the reportable segments are expressed at the ordinary income level. Intersegment sales and transfers are based on prevailing market prices.
