1. Qualitative information on consolidated results for the period under review

(1) Consolidated operating results

During the first nine months of the current fiscal year (May 1, 2020 to January 31, 2021), the Japanese economy continued to face challenging conditions due to the impact of the COVID-19 pandemic. However, amid signs of a pickup in consumer spending and other areas, policy effects and other factors are expected to help sustain a continued upturn in the economy.

In this economic environment, the AIN HOLDINGS Group (the Group) worked to expand its business and increase earnings by opening new dispensing pharmacies and cosmetic and drug stores and by reviewing its cost structure.

In pharmacy and store operations, the Group rigorously enforced measures to prevent infection to reassure patients and customers, and worked to ensure the continued provision of healthcare and retail services by implementing strict measures to protect employees from infection.

In addition, in December 2020, we identified key sustainability issues that the Group needs to address (materiality) in order to achieve the sustainable development goals (SDGs). Through businesses that support human health and beauty, the Group will work to achieve sustainability management with the aim of generating sustainable growth and creating social, environmental and economic value.

In the first nine months of the fiscal year, net sales was ¥220,135 million, nearly the same level as the period of the previous year, operating income decreased 45.3% to ¥6,813 million, ordinary income decreased 39.7% to ¥7,845 million, and profit attributable to owners of parent decreased 35.7% to ¥4,575 million.

Financial results by business segment are as follows.

(Dispensing pharmacy business)

Since September 2020, under partial revisions to the Act on Securing Quality, Efficacy and Safety of Products Including Pharmaceuticals and Medical Devices (Revised Pharmaceuticals and Medical Devices Act), which are being implemented incrementally, dispensing pharmacies have been allowed to provide online drug treatment guidance nationwide in accordance with certain rules. To ensure our pharmacists and dispensing pharmacies fulfill their primary care role, the Group continues to implement pharmaceutical management based on the integrated and continuous management of drug-related information through cooperation with local medical service providers, the use of patient medication notebooks and other means. The Group also enhanced drug treatment guidance and created a system that enables all dispensing pharmacies to provide online drug guidance so that every patient can easily access medical services in their local community.

In November 2020, we conducted a number of trials with the goal of building a next-generation healthcare service model that covers online drug treatment guidance through to the delivery of medicines to patients. Specifically, we implemented a trial using drones to deliver prescription medicines to patients on the island of Nokonoshima, Fukuoka City, and conducted online drug treatment guidance for patients in Ina City, Nagano Prefecture using a video conferencing system and healthcare mobility vehicles fitted with medical equipment.

In business development, the Group is pushing ahead with further business expansion and measures to improve the efficiency of pharmacy operations, including actively opening large pharmacies and tightening the criteria for M&A deals, as well as using its pharmacy opening strategy to withdraw from small-scale locations.

Sales and profits declined year on year, reflecting an increase in the duration of prescriptions during the COVID-19 pandemic, which led to a rise in the average unit price per prescription but a decline in the number of prescriptions. The closure and business transfer of 64 pharmacies in the previous fiscal year to improve the efficiency of pharmacy operations also had an impact. However, the number of prescriptions is now recovering at a moderate pace.

As a result, for the first nine months of the fiscal year, the dispensing pharmacy business reported sales of ¥194,284 million, down 1.3% year on year, and segment income of ¥13,769 million, down 11.6%.

During the same period, the Group opened a total of 15 dispensing pharmacies, including those acquired through M&A deals, and closed 12 dispensing pharmacies and transferred 34, resulting in a total of 1,057.

(Cosmetic and drug store business)

The cosmetic and drug store business continued to face a challenging market environment due to factors such as the impact of the COVID-19 outbreak. Against that backdrop, the Group continued to open ainz & tulpe cosmetic and drug stores in major metropolitan areas, while also shifting its focus in store opening strategy to areas around terminus stations in commuter towns, where demand is strong. The Group also strategically developed retail displays tailored to the characteristics of each store. In addition, the Group is using the official AINZ & TULPE WEBSTORE to improve convenience and service levels for customers.

As a result, for the first nine months of the fiscal year, the cosmetic and drug store business reported a decrease in sales of 28.3% year on year to ¥14,386 million, and segment loss was ¥1,507 million compared with the income of ¥575 million a year earlier.

During the same period, the Group opened seven *ainz & tulpe* cosmetic and drug stores and closed five stores, resulting in a total of 65 cosmetic and drug stores at the end of the third quarter.

(Other businesses)

Net sales from other businesses increased 244.9% year on year to ¥11,542 million, mainly reflecting the acquisition of retail shop business in March 2020, and segment loss was ¥479 million compared with the loss of ¥170 million a year earlier.

(2) Consolidated financial position

The balance of total assets at the end of the third quarter inclined by ¥5,321 million from the end of the previous fiscal year to ¥198,772 million. That mainly reflected declines for goodwill and for other accounts receivable, partially offset by increases for cash on hand and in banks and for other investments and other assets.

The balance of liabilities increased ¥2,667 million to ¥85,114 million.

The balance of short- term and long-term debts increased by ¥6,467 million to ¥12,542 million.

Total net assets increased by $\pm 2,654$ million to $\pm 113,657$ million and the shareholders' equity ratio decreased 0.1 percentage points to $\pm 57.2\%$.

(3) Forecast of consolidated financial results and other forward-looking information

The Group has not revised its earnings forecasts for the full fiscal year, announced on December 3, 2020.
